

Figure 1: No sign of a return to pre-COVID onsite work arrangements

Note: This figure shows the percent of vacancy postings that say the job allows one or more remote workdays per week. We compute these monthly, country-level shares as the weighted mean of the own-country occupation-level shares, with weights given by the U.S. vacancy distribution in 2019. Our occupation-level granularity is roughly equivalent to six-digit SOC codes. Figures depict the 3-month moving average.
